

Live in peace

I hear bullets fly,
Loud screaming in the sky,
No way to run,
I know my life is done
In my best days.

No clothes to wear,
Only hate and death are in the air,
No power drug
Can take you out of this fog,
You can believe me.

No fun in this life
Someone stabs kids with a knife
And the blood float down on their knees,
You don't care about me
The pain you can't see
And there is no help....
....that we can live in peace.

**No help that we can live in peace.
No help that we can live in peace.
No help that we can live in peace.**

Is this the end
No war has my life in hand,
I search the reason why
All the people must die.
I don't know it.

I am afraid
I think heaven can wait
The war has no rules
But politicians fools
Who's the guilty?

My youth was a time
Without hate, without crime
And green were the leafs an the trees
Those days are history
No thime for victory
And there is no help....
....that we can live in peace.

**No help that we can live in peace.
No help that we can live in peace.
No help that we can live in peace.**

**No help that we can live in peace.
No help that we can live in peace.
No help that we can live in peace.**
